

SELF HELP PROJECTS AT YOUR SCHOOL SITE

Enhancements or modifications to the school site with a donation of goods and/or services.

Are your parent volunteers putting in a **garden**?

A local artist painting a **mural**?

Your community Kiwanis donating a **bench**?

Contact PPO before you start on the project!

PPO can help with:

- **Site assessments** to ensure future District plans don't interfere with your project. For example don't put your garden in a location that will be used for future classrooms or is needed to access utilities.
- **Compliance with District standards** to ensure the project is completed safely and will withstand the test of time.
- **Responsibility reviews** to detail the site's maintenance and upkeep obligations.
- **Adherence with collective bargaining agreements** to avoid grievances.

All proposed volunteer projects require a **SELF HELP FORM**, available at <https://www.sandiegounified.org/site-self-help-projects>. Projects and/or donations will be reviewed by maintenance planning staff for approval.
