# Transition in the IEP: The Mandate IDEA: Transition Age 16 and Beyond

The term "transition services" means a coordinated set of activities for a child with a disability that:

- Is designed to be within a results-oriented process, that is focused on improving the academic and functional
  achievement of the child with a disability to facilitate the child's movement from school to post-school activities,
- Including postsecondary education, vocational education, integrated employment (including supported employment);
   continuing and adult education, adult services, independent living, or community participation;
- Is based on the individual child's needs, taking into account the child's strengths, preferences, and interests; and
- Includes instruction, related services, community experiences, the development of employment and other post-school
  adult living objectives, and, if appropriate, acquisition of daily living skills and functional vocational evaluation.

The Time Factor: Many students and teachers who focus on preparing for graduation and earning a high school diploma struggle to address transition because of the limited time available. Students who are self directed can be encouraged to take web-based career assessments (surveys, self appraisals, and interest surveys. These need to be followed up with reflection and transition interviews to document goals. Some schools utilize computerized information systems. Others rely on public, free systems. Again, reflection is critical. There is an array of career resources at www.californiacareers.info.
